

Infinite Possibilities

Received by: Daniela Hörath

Time: Received in the night between 25.04.25 and 26.04.25 around 0:15AM and truly landed in my heart in its purest form on 01.05.25 in the late evening.

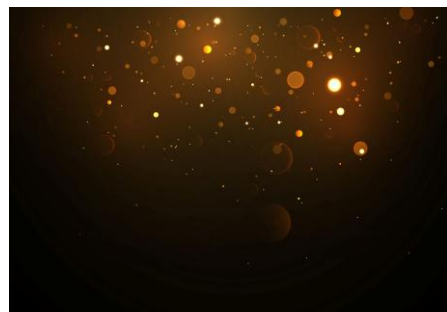

Origin: The Divine Mother

Keywords: Everything is possible, infinite possibilities

The *Infinite Possibilities* essence was gifted to me by The Divine Mother. The essence *Infinite Possibilities* supports us with healing at all levels, enabling us to express our Divine Self and step into our own Divine Plan. This essence is the Heart of Divine Plan Healing and was given for that purpose, it can however be taken at any time, without a healing session.

The *Infinite Possibilities* Essence carries a very feminine vibration, the Black Light, which is the Light of The Divine Mother. The essence gently yet powerfully animates the heart chakra to open to Love. It creates a powerful connection between our heart and our womb (our centre of creation) and opens our root chakra to the rising, loving and nurturing energies of Mother Earth. It helps us deeply connect with Mother Earth. *Infinite Possibilities* provides a nourishing base for everything we wish to create (achieve) for a life in alignment with our life purpose.

The Black Light - the Light of The Divine Mother is infinite potential that has not yet manifested. It is the invisible Light that contains endless possibilities and inspiration, which is waiting for us to express. The *Infinite Possibilities* essence helps us see all the opportunities open to us. It gently but firmly awakens the creative potential within us and also encourages realisation. In this way it helps us become the creators of our lives.

Good to know: seen the healing potential of *Infinite Possibilities* for the physical body, you can also place the essence bottle on an area of your body that feels uncomfortable or painful. You may experience relief or gain an insight regarding the cause, let yourself be surprised by what turns up.

Please note however, that the Infinite Possibilities essence is not a substitute for a visit to a doctor, a qualified health practitioner or prescribed medication.

With Love and Gratitude
Daniela Hörath
